

The Double Century Club was formed in 1975 by members of Advanced Study Group No. 200 of the Insurance Institute of London. The Study Group had published their findings in October 1973, entitled "Life and Pensions in the European Community", and members wished to maintain contact and follow developments in their chosen field.

From an original membership of about 30, the Club has grown to more than 150, and membership is drawn from all parts of the Life Assurance and Pensions Industry.

Monthly meetings are held during the period October to May and speakers have come from many European countries to address the Club on a wide variety of topics. Meetings are informal, and contributions to discussions from members and their guests are welcome.
