

RISK ASSESSMENT

Facing the Future with ICLAM

Fabrice Chouty
ICLAM President

ICLAM

International Committee for Insurance Medicine:

- ✓ Created in 1899.
- ✓ Gathering CMO's from different countries.
- ✓ Grew-up during the XXth Century beside and with the support of the Insurance and Reinsurance companies.
- ✓ Organizes a triennial international congress since 1932. (Madrid 1979 and 2013)

ICLAM STRUCTURE

- International Bureau (1901-2013) or Board (since 2013).
- New Bureau (since 2013) : 1 member per country (MD).
- Membership : Doctors, Underwriters, Actuaries.
(non profit organization). Application through the website:

www.ICLAM.org

ICLAM : AIMS

 - ✓ Updating the medical knowledge.
 - ✓ Sharing medical expertise (workshops).
 - ✓ Discuss the new products and future perspectives
- ✓ Establishes medical societies in countries where none as yet exist (technical support).
- ✓ Actively participate in the educational programs of insurance medical societies (AAIM, AMCAP...).

ICLAM : AIMS

- ✓ Publishing an e-letter and uploading the Congress' presentation on the website (available for ICLAM members only).
- ✓ Promoting the teaching of insurance medicine and encouraging the scientific research into problems related thereto.
- ✓ Fostering the personal relations of its members.
- ✓ awarding prizes for the best papers published on subjects related to insurance medicine.

ICLAM : AIMS

More generally...

Intervening in any International problem concerning insurance medicine and, at the request of its members, in Regional questions, educational or research programs.

ICLAM – FACING THE FUTURE

- ✓ A rejuvenated and agile Board.
- ✓ Future congresses : Maastricht (2016) and Mumbai (2019).
- ✓ Tightening the links between its members :
 - ✓ Discussing new products and new trends.
 - ✓ working about the future of the risk assessment and claims management.
 - ✓ Participate to forums and discussions about insurance medicine

ICLAM – FACING THE FUTURE

- ✓ We're coming from the Dark Ages of the insurance business/medicine...
- ✓ We used to share our knowledge and to give the best possible medical contribution to the insurance industry during the XXth century.
- ✓ We're now at the XXIst century facing new tools, new concepts, new trends and we have the strong will to promote and cooperate tightly with associations like AGERS to improve the quality of our contribution to the industry.

CHALLENGES FOR THE FUTURE

- ✓ SCIENTIFIC PROGRESS...
- ✓ NEW UNDERWRITING TECHNIQUES.
- ✓ LEGAL REQUIREMENT COMPLIANCE AND ETHICS
- ✓ NEW PRODUCTS AND NEW MODELS.
- ✓ INTERNATIONAL NETWORKING AND COOPERATION BETWEEN THE SCIENTIFIC SOCIETIES & WORKING GROUPS.

**THANK YOU FOR YOUR
ATTENTION!**

HAPPY 30th BIRTHDAY AGERS !
